

IMC University of Applied Sciences Krems

IMC University of Applied Sciences Krems is a modern, nationally and internationally renowned university of applied sciences in Austria. It currently offers 27 innovative bachelor's and master's programmes, both full-time and part-time, in business, digitalisation & engineering, health sciences and life sciences. The total number of students is more than 3,000. The high level of satisfaction of Austrian and international students with IMC Krems is impressively demonstrated by Universum Talent Research: year after year, the university of applied sciences in Krems provides remarkable results, particularly in the categories of student satisfaction and career services.

Practice-oriented knowledge transfer

Studying at IMC FH Krems is particularly practice-oriented and characterised by imparting leadership qualities, sustainable thinking and acting, international aspects and soft skills. Project-related work in manageable groups and in direct contact with the lecturers is another bonus. IMC FH Krems is particularly concerned with first-hand knowledge transfer and sustainable knowledge acquisition for students. A dedicated, international and highly qualified teaching faculty, which puts a strong emphasis on quality, motivates students to perform to the best of their ability, preparing them for international careers. New Institutes for Business Administration and Management, Health Management, Digitalisation and Informatics, Tourism, Wine Business & Marketing and International Trade & Sustainable Economy in the Department of Business ensure that teaching and research come even closer together. Interactive learning, direct, personal exchange of experience between staff and students, cooperation with research facilities and enterprises, and international partnership programmes with other universities make studying at IMC Krems a unique experience. Set in one of the most idyllic parts of Austria at the gates of Vienna, there is also an extensive range of leisure activities on offer, which turns the university into a home away from home for students.

International partnership in action

International aspects shape day-to-day activities at IMC Krems: we have close ties with 155 partner universities, cooperate in numerous partnership programmes and our students come from 70 different countries. Intercultural exchange, internships abroad, participation in international research projects, and lectures from international teaching staff and guest professors with extensive international experience are part and parcel of what we do. Around half of all degree programmes are taught in English – an especially attractive aspect for both Austrian and foreign students.

Sustainability and digitalisation

IMC Krems continuously adapts the main topics of its study programmes, management and research to current requirements. Accordingly, a great deal of space is devoted to digitalisation. Digital skills are incorporated into the curricula of each degree programme to make students fit for the digital demands of their careers. Furthermore, a strong focus of all IMC activities is on sustainability. Through the targeted interplay of ecological, social and economic factors, IMC Krems is increasingly developing into a sustainably operating university. Students are also taught the values of social and ecological responsibility as a focus topic within the framework of the degree programmes. The "Environment and Sustainability" team coordinates all activities in the field of sustainability, which is incorporated into teaching, research, management and social commitment.

Launch your career in Krems

Establishing close ties between teaching, research and industry is a major priority for IMC Krems. The university sees itself as more than just a higher education institute – it continually pursues cooperation with the worlds of research and business. In this way, the university of applied sciences makes a significant contribution to ensuring that students are fit for the national and international job market.

IMC University of Applied Sciences Krems

With 155 partner universities, over 1,000 partner companies worldwide and over 3.000 students from 70 countries, IMC FH Krems in the heart of Lower Austria is an Austrian university of applied sciences focusing on internationalisation, practical orientation and networking. Sustainability and digitalisation are also contemporary focus topics across all study programmes in this dynamic, modern educational institution. The university currently offers 27 full-time and part-time bachelor and master degree programmes plus four continuing education courses in business, digitalisation and engineering, health sciences and life sciences. IMC Krems has strong links with research and business – numerous research projects are currently under way at the university, with a total funding of several million euros. English and German as the languages of instruction, internships in Austria and overseas, international exchange programmes and semesters abroad ensure that students are fully prepared for careers in Austria or other countries. **Outstanding:** IMC Krems has an excellent reputation outside Austria thanks to numerous awards (CHE University Ranking, IQNet and Quality Austria for ISO standard, Diploma Supplement Level), certifications (evalag), memberships (FHK, AACSB, EFMD, ÖAWI, EAIE), and accreditations from international organisations.
